THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Lisa L.B. Yociss (Reg. No. 36,975) on April 16, 2008.

3. The application has been amended as follows:

4. **Claim 7**

5. A computer program product that is stored in a computer readable **recordable-type** medium for virtualizing non-contiguous physical memory ranges into a contiguous logical address range, the computer program product comprising:

instructions for virtualizing a first range of contiguous physical addresses, which are allocated for system memory for an operating system run by a processor configured to support logical partitioning, to produce a first range of contiguous logical addresses;

instructions for virtualizing a second range of contiguous physical addresses, which are allocated for system memory for the operating system, to produce a second range of contiguous logical addresses, the first range of contiguous physical addresses and the second range of contiguous physical addresses being non-contiguous, the first range of contiguous logical addresses and the second range of contiguous logical addresses being contiguous and forming a combined range of contiguous logical addresses;

instructions for virtualizing a third range of contiguous physical addresses, which is allocated for memory mapped input/output, that is intermediate to the first range of contiguous physical addresses and the second range of contiguous physical addresses to produce a third range of contiguous logical addresses, a lowermost logical address of the third range of contiguous logical addresses exceeding an uppermost logical address of the combined range of contiguous logical addresses;

instructions for maintaining a mapping table that defines physical addresses and their corresponding logical addresses; and

wherein the mapping table is maintained in at least one of the first range of contiguous physical addresses and the second range of contiguous physical addresses.

REASONS FOR ALLOWANCE

6. The following is an examiner's statement of reasons for allowance:

7. Per the instant office action, claims **1, 4-7, 10-18 and 20** are considered as allowable subject matter.

8. The reason for allowance in the instant application of claim 1 is the *combination with the inclusion* in these claims of the limitation of a method of supporting memory addresses with holes wherein “...virtualizing a memory mapped input/output physical address range that is intermediate the first physical address range and the second physical address range to produce a third logical address range, wherein a lowermost logical address of the third logical address range exceeds a respective uppermost logical address of the first and second logical address ranges... wherein maintaining the mapping table further comprises maintaining the mapping table”

in a physical address space allocated to one of the first and second physical address ranges...”

The prior art of record neither anticipates nor renders obvious the above-recited combination.

9. The reason for allowance in the instant application of claim 7 is the *combination with the inclusion* in these claims of the limitation of a computer program product that is stored in a computer readable recordable-type medium for virtualizing non-contiguous physical memory pages into a contiguous logical address range comprising “...instructions for virtualizing a third range of contiguous physical addresses, which is allocated for memory mapped input/output, that is intermediate to the first range of contiguous physical addresses and the second range of contiguous physical addresses to produce a third range of contiguous logical addresses, a lowermost logical address of the third range of contiguous logical addresses exceeding an uppermost logical address of the combined range of contiguous logical addresses... wherein the mapping table is maintained in at least one of the first range of contiguous physical addresses and the second range of contiguous physical addresses.” The prior art of record neither anticipates nor renders obvious the above-recited combination.

10. The reason for allowance in the instant application of claim 15 is the *combination with the inclusion* in these claims of the limitation of a data processing system for supporting non-contiguous system memory ranges wherein “...the processor for virtualizing the third range of contiguous physical addresses to produce a third range of contiguous logical addresses, a lowermost logical address of the third range of contiguous logical addresses exceeding an uppermost logical address of the combined range of contiguous logical addresses; a set of instructions that is executed by the processor for virtualizing the first, second, and third ranges of contiguous physical addresses, wherein the set of instructions is maintained in the memory in at

least one of the first and second ranges of contiguous physical addresses.” The prior art of record neither anticipates nor renders obvious the above-recited combination.

11. Dependent claims 4-6, 10-14, 16-18 and 20 are allowable at least for the reasons recited above as including all of the limitations of the allowable independent base claims upon which they depend.

12. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

13. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yaima Campos whose telephone number is (571) 272-1232. The examiner can normally be reached on Monday to Friday 8:30 AM to 5:00 PM.
